MAYOR'S PROCLAMATION

"I therefore proclaim Saturday, May 23, Poppy Day....."

Saturday, May 23, was named Poppy Day, and all citizens were urged to observe the day by wearing memorial poppies in tribute to the nation's war dead ,in a proclamation issued today by Mayor T. T. Moses, Jr. The proclomation stated: "Remembrance of those who gave their lives in defense of our country and its freedom being an inspiring part of our American heritage, and all of us having personal memories of young men from our county who died in war service, it is fitting that we keep those memories bright by wearing one of the poppies each year. I therefore am proclaiming Saturday, May 23, to be Poppy Day, in the Town of Appomattox, and urge all citizens to observe the day by wearing the Memorial Poppy."

Military Dratt Extended

(The draft has been extended for four years, until July 1, 1963. This means that the young men of the country must continue to expect to serve in the military forces. This series of articles outlines the basic responsibilities and rights of young men under the draft law.

This is the fifth article in the series.

The draft law provides special procedures for persons claiming to be conscientiously opposed by religious training and belief to combatant duty, or to all duty.

If a registrant establishes conscientious objection to combatant duty only, and is otherwise available and acceptable, he is classified in Class I-A-O and may be inducted for noncombatant duty.

If a registrant establishes conscientious objection to all duty, he will be classified in Class I-O and then is liable to perform civilian work in the national health, safety, or interest for two years in lieu of service in the Armed Forces.

Special procedures to evaluate claims of conscientious objection and for assignment to civilian work are provided and are too complex and detailed to discuss here.

Local boards have a special responsibility with respect to members of the Standby Reserve, whether these reservists have served on active duty or not.

The Director of Selective Service is required by law to maintain up-to-date information in the hands of the Armed Services as to whether each Standby Reservist may be recalled to active duty or should be left in civilian life because of occupation or dependency.

Standby Reservists are subject to orders to active duty in the event of war or national emergency declared by Congress, but only after their availability has been determined by Selective Service. To make that determination, local boards must obtain information from Standby Reservists. The boards must keep this determination current.

(The next article discusses the "doctor draft.").
